Camp Bioscience - Buo, et al.

Appendix 2. Observation Sheet.

Lab Module:	Give at least one example to explain score. Do not use identifying information.			
Student Actions	**Often to most of the time (< 50%)**	**Some (25-50%)**	**Rarely (>25%)**	**Not observed**
Are students asking questions related to the lab module?				
When asking questions, is it during interactions with fellow campers (not camp counselors)?				
Are students engaged in high level thinking (predicting, connecting, problem solving)?				
Are students following directions during the lab modules?				
Are students interacting with each other in ways unrelated to the lab activities?				
Do students stay on task during the activities?				

Appendix 2. Observation protocol developed for Camp Bioscience by C. Buo. Two raters completed an observation sheet for each lab module during the camp week.
