

## Biosocial “Science Talk” - Kinsey et al.

### Appendix B. Example Questions for Learned Reward Pre/Post Experience Survey

*Before beginning the experience, ask:*

1. **What happens when you touch something with one hand?**
  - a. My other hand feels the same thing.
  - b. My hand knows what it’s touching.
  - c. Information travels from my hand to my brain.
  
2. **Which of the following factors determines how much you like something?**
  - What your friend or family member thinks   **TRUE FALSE**
  - Bad memories   **TRUE FALSE**
  - How tall you are   **TRUE FALSE**
  - How our ancestors lived   **TRUE FALSE**
  - Good memories   **TRUE FALSE**
  - What time of day it is   **TRUE FALSE**

*After completing the experience, ask:*

1. **What happens when you touch something with one hand?**
  - a. My other hand feels the same thing.
  - b. My hand knows what it’s touching.
  - c. Information travels from my hand to my brain.
  
2. **Which of the following factors determines how much you like something?**
  - What your friend or family member thinks   **TRUE FALSE**
  - Bad memories   **TRUE FALSE**
  - How tall you are   **TRUE FALSE**
  - How our ancestors lived   **TRUE FALSE**
  - Good memories   **TRUE FALSE**
  - What time of day it is   **TRUE FALSE**
  
3. **What did you learn about your brain today?**
  
4. **Why did you like something more or less than other people in the group?**  
*(Probe: For example, why did you put a magnet in a different category than someone else?)*
  
5. **Can you tell me a story about something you like or do not like, and can you connect that to a memory that you have?**  
*(If visitors do not provide a detailed response, dig deeper asking why they think the way they do)*
  
6. **On a scale from 1 to 5 with 1 being the lowest and 5 being the highest, how would you rate this activity?**
